Glossary

Harissa: is a North African hot chili pepper paste, the main ingredients of which are roasted red peppers, Baklouti pepper, serrano peppers and other hot chili peppers and spices and herbs such as garlic paste, coriander seed, saffron, rose or caraway as well as some vegetable or olive oil for preservation. It is most closely associated with Tunisia, Libya, Algeria and Morocco.

Labneh: is yoghurt that has been strained to remove its whey, resulting in a thicker consistency than unstrained yoghurt, while preserving yoghurt's distinctive, sour taste.

Tapioca- Tapioca is a starch extracted from the root of a plant, whose scientific name is Manihot esculenta or more commonly, cassava. It is a typical Brazilian delicacy, native to South America.
